

SPECIFICATION SHEET

PLUMEN 002 LED LOW ENERGY LIGHT BULB

ORIGINAL

The Plumen 002 LED has the same unique bulb design of the Original 002 with its minimal form and sweeping shapes that bring style and warmth to any space. The 002 LED exploits new technology to use a lower, more economical wattage but retains its subtle colour. The developments in the product mean the new bulb is now compatible with dimmer switches, giving the user the ability to control the lighting to fit their mood.
